
Piastre per stampi

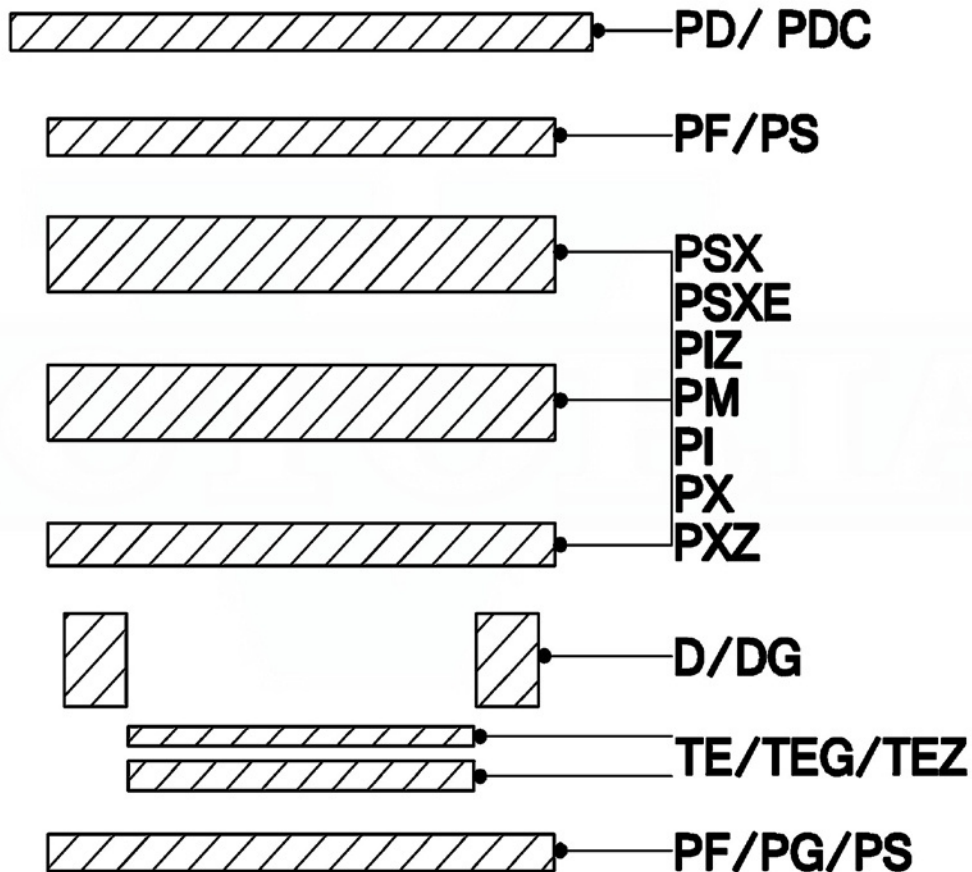

Piastre portastampi

La "Victoria s.a.s" presenta la sua gamma di blocchi portastampi per materie plastiche e pressofusione di leghe leggere.

Ottenute con un superiore livello qualitativo e l'integrazione di gamma di piastre che consentono la costruzione di blocchi di tipo europeo, compatibili con le normative standard internazionali.

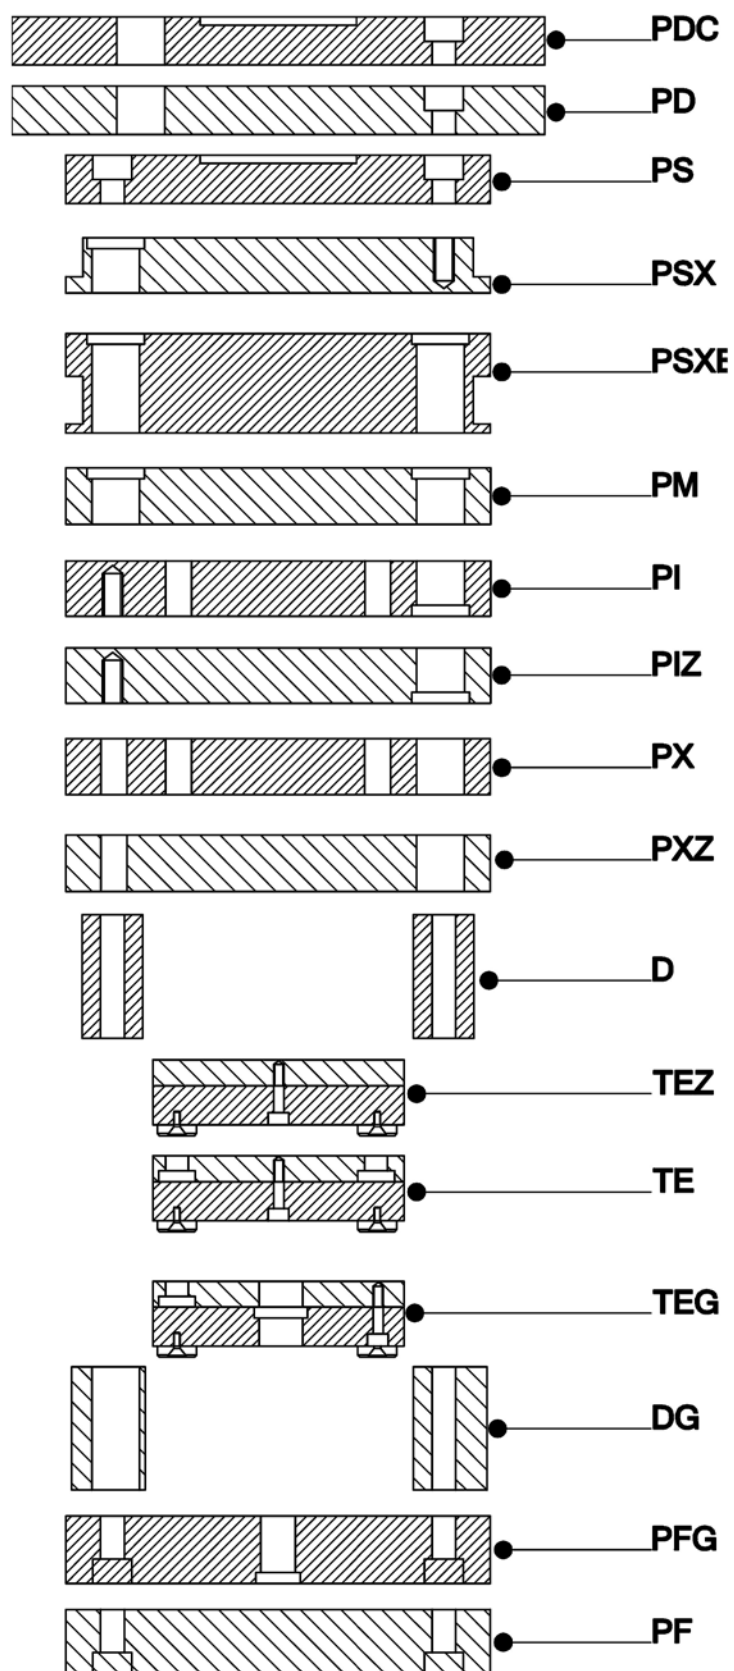

Con la caratteristica possibilità di effettuare la partenza delle lavorazioni da qualsiasi parte si voglia grazie al perfetto parallelismo fra la squadratura rettificata e l'asse dei fori delle colonne e boccole.

La gamma della produzione comprende, a richiesta, lavorazioni aggiuntive sui portastampi di serie e la costruzione di portastampi speciali su disegno.
